Your Full Name

City, State | *Target Role (e.g. Software Engineer / Data Analyst)*
+91-XXXXXXXXXX | yourname@email.com | linkedin.com/in/yourname | github.com/yourname | yourportfolio.com

Summary

Computer Science graduate with hands-on experience building **full-stack web applications** and **data-driven projects** from idea to deployment. Built a personal finance app used by **500+ users** and a movie recommendation engine during an internship and college projects. Strong foundation in **Data Structures & Algorithms, DBMS and OOP**, with practical skills in **React.js, Node.js, Python and SQL**. Looking for a Software Engineer role where I can build reliable products and grow with a strong engineering team.

Education

Your College Name, City — **20XX – 20XX**
B.Tech – Computer Science and Engineering | *CGPA: X.X/10* — *City, State*

Your School / PU College Name — **20XX – 20XX**
Class XII (PCM) | *Percentage: XX%* — *City, State*

Work Experience

Company Name – ***Software Developer Intern*** | View Live — **Jan 20XX – Jun 20XX**

- Built and shipped **3 new features** for the company's customer dashboard using **React.js and Node.js**, used by **2,000+ customers**.
- Improved page load time by **35%** by optimising API calls and adding caching.
- Worked with the design and QA team to fix **40+ bugs** and release updates every 2 weeks.
- Wrote unit tests with **Jest**, raising test coverage of the dashboard module from 45% to **80%**.

College / Club Name – ***Web Developer*** — **May 20XX – Aug 20XX**

- Designed and built responsive pages for the official college fest website using **HTML, CSS and JavaScript**.
- Handled registrations for **1,000+ participants** through an online form connected to Google Sheets.

Projects

Expense Tracker – Personal Finance App | *React.js, Node.js, Express, MongoDB* | View Live — **Full-Stack**

- Built a web app that lets users track daily expenses, set monthly budgets and see spending charts; used by **500+ users**.
- Added secure login with **JWT authentication** and REST APIs for adding, editing and filtering expenses.
- Designed the **MongoDB** schema and added indexes, cutting average query time from 400 ms to **120 ms**.
- Added monthly reports with **Chart.js** and CSV export so users can download their spending history.
- Deployed on **Vercel and Render** with a CI pipeline using **GitHub Actions** for automatic testing and releases.

Movie Recommendation System | *Python, Pandas, Scikit-learn, Streamlit* | GitHub — **Machine Learning**

- Built a content-based recommender on a dataset of **5,000+ movies** using TF-IDF and cosine similarity.
- Created a simple **Streamlit** web interface where users pick a movie and get 5 similar suggestions instantly.
- Cleaned and merged raw data with **Pandas**, reducing missing values from 18% to under 2%.
- Evaluated results with a user survey of **50 classmates**; **78%** rated the suggestions as relevant.

Chat App – Real-time Messaging | *Socket.io, Node.js, React.js, Firebase* | GitHub — **Real-time Systems**

- Built a group chat app with **real-time messaging**, typing indicators and online status using **Socket.io**.
- Stored chats and images in **Firebase**, supporting **100+ concurrent users** in load testing.

Skills

Languages: C++, Java, Python, JavaScript, SQL
Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS
Backend & Databases: Node.js, Express.js, REST APIs, MongoDB, MySQL
Tools: Git & GitHub, VS Code, Postman, Figma, Vercel
Core CS: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management

Achievements & Certifications

Solved 400+ DSA problems – LeetCode and GeeksforGeeks (LeetCode rating: XXXX).
Finalist, College Hackathon 20XX – Ranked top 10 among 150+ teams.
Full Stack Web Development Certification – Platform Name · **Python for Data Science** – Platform Name
SQL (Intermediate) Certification – HackerRank · **Cloud Fundamentals** – Platform Name

Leadership

Technical Lead, Coding Club – Organised weekly coding contests and mentored 50+ juniors in DSA.
Volunteer, Annual Tech Fest – Managed event logistics and sponsor coordination for 2,000+ attendees.
Member, Entrepreneurship Cell – Helped organise startup talks and pitch events with founders and investors.
Class Representative – Acted as the link between 60 students and faculty for academic and placement updates.
